Dear Madam

**RE: INQUIRY INTO HYPONATRAEMIA RELATED DEATHS- R FERGUSON**

We refer to the above matter and to your letter dated 19<sup>th</sup> February 2013, reference as quoted above. We confirm having located the draft statement of Mr Zafar dated 22<sup>nd</sup> March 2002. The only copy which has been found is in the DLS Inquest file.

We claim Legal Professional Privilege in relation to the content of the DLS Inquest file but, in the spirit of attempting to assist the Inquiry and as this document would have originally been located in the Trust file, we are prepared to waive privilege in relation to the above-mentioned document, a copy of which our Mr Johnston can make available to you at Banbridge today.

We would also advise that Mr Zafar had been sent a copy of Dr Johnston's statement as it was clear from his draft statement that he had only dealt with the morning ward round and not with the events which occurred after 3.15am on 9<sup>th</sup> June 2001. It was felt that Mr Zafar should have the opportunity to comment upon (by agreeing or disagreeing with) the description of events as provided by Dr Johnston in his statement.

Yours faithfully
