Attachments: BMCL-0057-13.pdf

Alison

In response to the letter from Brian McLoughlin, Dr Taylor has confirmed the following -

Dr Taylor was not aware of a decision being made in 2001 in clear cut terms to cease the use of solution 18. Solution 18 is still available in certain controlled areas of RBHSC and may be administered if clinically indicated under careful monitoring conditions. Dr Taylor believes the use of solution 18 was restricted by the Trust at some stage but does not know the date when its prescription was restricted. That would be best answered by the Trust.

Please could you respond to my email requesting information as to whom questions about this issue are to be directed and when you anticipate Dr Nesbitt will be giving evidence.

Kind regards

Alison

Can you confirm which witnesses will be asked questions about this, and when Nesbitt is giving evidence. Do you have a copy of the witness schedule for next week?

Kind regards
