Folks

To note. I was not aware of this case.

As you can see the Royal have not used the proforma that accompanied the 02/06 corcular. This should however be set up as a SAI.

Jonathan,
Please note email below from Michael McBride regarding an upcoming Coroner's inquest.
Miriam/Elizabeth/Clare,
We maybe should prepare some lines to take in anticipation of media interest.
Yours, Ian

Ian,

See below I notify you as per Circular HSS (PPM) 2/2006.

I requested a review of the case by Ian Young following contact by the Roberts family.

Following this initial report I asked that Peter refer the case back to HM Coroner by RGH in December 2004.

Nichola Rooney has been seeking to support the family.

Yours

cc Peter Walby

June,

As the nominated trust officer can you notify the Department as per Circular HSS (PPM) 2/2006 - Reporting & Follow-up on SAIs.

Yours

Michael

The Inquest into the death of this 9 year old girl will be held in Belfast Coroner's Court on Tuesday 25th April 2006. She died in 1996 in RBHSC and a consented limited hospital post

mortem examination of brain was performed. She had had severe learning disability and a history of epilepsy, and a diagnosis of encephalitis was considered on admission. She had a respiratory arrest within two days and died later that day in ICU and a Death Certificate was issued recording the cause as cerebral oedema secondary to status epilepticus.

Following the UTV Insight programme in October 2004 into paediatric deaths from hyponatraemia, Claire Robert's parents contacted the hospital and after a review of the notes it was considered in retrospect that the known hyponatraemia which was treated may have had a part to play in the medical condition leading to death, and after a meeting with the family the death was reported to HM Coroner by RGH in December 2004.

HM Coroner has obtained independent expert reports from 2 consultants in Great Ormond Street and St. Mary's Hospitals. The parents have become involved further by posing detailed questions, and this Inquest is likely to provoke considerable public and media interest.

Dr. Ian Carson had been advised earlier of this case by H M Coroner and it may be appropriate for Dr. McBride to put DHHS&PS on notice of the Inquest date.
