Subject: Hyponatraemia Wall Chart for Children.

Importance: High

Martin

I have received an amended version of the Hyponatraemia Wall Chart for Children.

The TRIM Reference Number is DH1/10/2816.

If you print it out the three equivalency signs come out clearly.

Would you please look over the chart to ensure that it meets the necessary requirements before I ask for it to be printed.

Thank you for your help.
