Departmental charts MHR 2/4/10

OFFICE OF THE MEDICAL DIRECTOR

22nd March 2010

Mr George Russell
Standards and Guidelines Quality Unit
Room D1.1
Castle Buildings
BT4 3SR

Dear Mr Russell

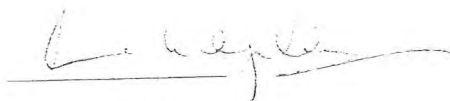

Re: Hyponatraemia Charts

Thank you for your letter dated 2nd March 2010.

I wish to advise that during the recent RQIA Review of Hyponatraemia the review team agreed that the Western Trust chart expressly states the Corporately approved solution is acceptable and will reduce risk because there is no requirement to attach the list of approved fluids.

I enclose a copy of the Western Trust Guidelines for your information.

Yours sincerely

Dr Anne Kilgallen
Medical Director
