Andrew

Good morning.

I was on Leave on Thursday and Friday and saw this question to yourself this morning.

It may be useful for your answer.

It was agreed that the Hyponatraemia Wallchart for Children, first produced in September 2007 would be updated. When the content of the poster was agreed a 150 copies of the amended poster (February 2010) were produced and forwarded to the 5 HSCTs. Subsequently and following request from the HSCTs a further 280 copies of the poster have been developed.

The WHSCT has not requested additional copies of the poster, as it has its own wallchart, which has been agreed by RQIA Review Team.

RQIA REVIEW PROGRAMME; REDUCING THE RISK OF HYPONATRAEMIA WHEN ADMINISTERING INTRAVENOUS FLUIDS TO CHILDREN
