Subject: Hyponatraemia Wall charts

Importance: High

Karen

Following the initial request from the BHSCT Audit Department for additional Hyponatraemia Wall charts, I advised you that I had also gone out to the other HSCTs to ask if they required additional copies of the wall charts. You asked me to enquire from GAIN if they had ascertained a need for Hyponatraemia Wall charts and then to provide you with a breakdown of the numbers of Hyponatraemia Wall charts that each of the HSCTs have requested.

The breakdown is as follows:

HSCT	110 wall charts. These are to meet medical needs.
NHSCT	40 wall charts for the Audit Unit. (information supplied by GAIN)
BHSCT	50 wall charts for the Audit Unit.
SHSCT	15 wall charts Young People's Services
SHSCT	20 additional wall charts for the Audit Unit (information supplied by GAIN)

Combined they make a total of 235 wall charts.

If you are in agreement I propose ordering a total of 260 wall charts, which means that there will be 25 in store to meet any need that may arise.

Happy to discuss.

George
