Gerard,

There were 3 meetings of the Hyponatraemia sub-group. I sent you an e-mail on 2 June 05 with attachments containing the Feb 02 Hyponatraemia meeting and an excerpt from the CREST meeting in Nov 01 where the main committee had discussed the topic. A further e-mail was sent to you on 3 June 05 with attachments containing the Hyponatraemia minutes of Apr 02 and Jun 02. These were the only meetings that took place as it was a fairly rapid project.

Gary

Subject: CREST Hyponatraemia Sub Group

Gary,

In checking the reference in my witness statement to the O'Hara Inquiry, I noticed there were 3 meetings of the CREST Sub Group on the Prevention of Hyponatramia in Adults. The dates of these sub-group meetings are:

- 24.Feb.2002
- 27.April 2002
- 21.June.2002

I had thought there were only two meetings, ie the Feb and April meetings. Please check this out and let me know how many meetings the sub group had and if there were any more than 3 meetings.

Thanks

Gerard
