Subject: Re-Issue of Wallchart Guidance on Treatment of Hyponatraemia in Children

Colleagues, following the recent GAIN audits of compliance with guidance on treating hyponatraemia in children, it has been agreed to make a minor amendment to the above wallchart. The chart will then be re-issued to Trusts for display in all wards where children are or may be treated.

To that end, I would ask that you advise as soon as possible the number of wallcharts required for your trust in order to meet the requirements for display and add any additional charts required in order that your Trust has enough spare copies to allow for replacements over the next few years.

Please advise Jonathan Adair of the numbers required – [REDACTED] – by next Thursday 14th February.

Regards,

Jennifer
