Jenne, can you put the background box back in on the calculation of daily rate section? The yellow box?

There's still a plasma in the bottom box (intra-operative patients)

Hi Jennifer,

This correct? Sorry very busy down here.

Jenne, this version still has the phrase Plasma glucose which was the original change to be made.

This is the version that should be changed with the boxes etc to be added and equals signs removed..

Jenne, can you change the date form amended February 2010 to amended June 2013?

Thanks,

Jenne, further to the other work you have been doing on this chart, there is one more change now required (and apologies for this dragging on).

In the box entitled "Calculation of 100% maintenance rate" can you remove all the signs that are three parallel lines; put boxes around the lists "100 ml/kg/ day
50 ml/kg/ day, 20 ml/kg/ day" and 4ml/kg/hr, 2ml/kg/hr, 1ml/kg/hr; and put the word "or" in between these two new boxes.

The line "[for 100% daily maintenance add together (a) + (b) + (c)]" should run underneath the two new boxes.

Many thanks and happy to discuss if this isn't clear on

Jennifer
